

HUMAN RESOURCES

Available Immigration Services through EAP

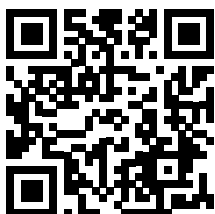

With the recent announcements of new immigration policies we realize that employees and their families within our workforce might have questions. Through our partnership with Magellan, eligible employees and their household can access a range of support services in addition to counseling.

These services include:

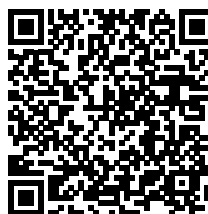

- **Citizenship Assistance:** Guidance through the naturalization process, including eligibility assessments and interview preparation.
- **Deportation Support:** Advocacy in immigration court, appeals, and relief options such as asylum or status adjustments.
- **International Immigration Issues:** Assistance with dual citizenship, international adoptions, and cross-border business immigration matters.
- **Visa Assistance:** Help with applications for study, travel, or permanent residency (excluding work-sponsored visas due to workplace restrictions).
